James Edwards and John Bryant who reside in Jriferson county, Fla., have been visiting Miss Patterson, a young lady of the neighborhood, for some time, and, of course, a feeling of jenlousy between them was the result. They met in the public read on horseback on Tuesday, and, after a few words, each drew his pistel and commenced firing, and continued until their weapons were empty. Then, they dismounted and fought with knives until each fell mortally wounded. Both were shot and tut literally to pieces, and one is now dead.

A horrible outrage is reported from Kenson Station, Tenn. A gentleman in the neighborhood had a young woman living with him who was highly exteemed by the neighbors. The gentleman's wife died, and she left for prudential reasons. Several months thereafter she returned and begged permission to make it her home. Being a kind-hearted man, and suspecting nothing, he consented. Shortly afterward it was noticed something was wrong with her, which she alleged was dropsy of the stomach. A physician was called in, and a couple of neighboring ladies. He soon understood the case and navised her to keep quiet. He incisted upon her being quiet of he would have to have her held. He went into an adjoining room, and as soon as he was out of sight she jumped up and ran out of the house, pursued by the two ladies. She rushed through the corn-field into the Obion bottom, followed now by the physician and the gentleman of the house. They lost her, however. Next morning the search was renewed, and she was found on the bank of the river in a most horrible plight. They begged her to tell them where the child was, but she refused, and up to the time our informant left they had not succeeded in finding it. A horrible ou'rage a reported from Kenton and up to the time our informant left they has not succeeded in finding it.

On last Sunday morning, between 12 and 4 o'clock, there was one of the most horrible and flendish marders and incendiarisms ever perpefendish marders and incendiarisms ever perpetrated in the south. The deed was committed one mile and a half west of Shannon Station and six miles north of Okalona, Miastasippi, upon the persons of Thomas Borum and family, the family consisting of his wife, a very nice lady, two little children and a small negro boy. Burum was in Shannon late Saturday evening and remained some time in his uncle James Whitesides' store. There were probably ten or a dozen people in the store at the country. I matted in Lincoln county, Mo., some six or city that the country has a store and the country has a store and the country has a store at the country has a store and the country has a same time. Mr. Whitesides remarked to some one of them that he had bought a lot of mules that day, and he had lacked a small amount of money in settling for them. Mr. Borum profered his uncle the use of five hundred dollars Mr. Whitesides declined to take it upon the ground that his nephew might need it. Mr Borum returned to his home to be butchered, with a rock thrown by a boy named West. He arose and attempted to reach Wallace, when he are an in headed down with a rock thrown by a boy named west. Borum returned to his home to be butchered, together with his wife and little children, and their bodies burned to ashes in the ruins of his own house. Mr. Borum's skeleton was found with his head towards the door, and his pistol lying clutched in his lifeless hand; elso a blank cartridge laid near by, with an indentation on the but of it caused by the hamdentation on the but of it caused by the ham-mer, as if it had been fired at some one enter-ing the deer. A knife, which he had berrowed that evening for the purpose of cutting some meat, was also found near him, and was idea-tified by several persons. It is supposed that he had a terrible hand-to-hand struggle in pro-tecting himself and family from the ru hless hand of the midnight assassin. The skeletons of his wife and childred were found in on-corner where the builting stood, and the little negro's before the fire place, where he usually slept. They were probably murdered in their beds.

This feature only applies to subscrib such industrious energy, that his interlocutor hadu't the heart to expose him to those who were listeners to his bombestic boasting, but waited until they came down on to the street, when he told him that he had never been in Harlan county, knew not a soul there, and all the names he called over were purely fictitious.

"Oh." exclaimed the unabashed veteran, "I know so many people, and meet so many others, that I get their dashed names confused. But I tell you what, --- every dashed man, woman and child in Harlan is for me!"

Our friend asked us what we thought of it all. We told him that we thought when he entered upon his ruse he was digging into the hard-pan of old Cerro Gordo's most amiable weakness.

IF we were one of the poor oppres women of the land, like sweet Miss SUBAN B. ANTHONY; for instance, we'd resolve ourself into a CHARLOTTE COR DAY, put on our war-paint and camp on the trail of Judge WALSH, of Brooklyn, New York, who decided the other day that a married woman has no legal right to open her husband's letters.

ION OF AMERICAN ART TASTE

THE ART JOURNAL OF AMERICA

DERFULLY CARRIED OUT.

The necessity of a popular medicur for the representation of the productions of our great artists has always been recognised, and many attempts have been made to meet the want. The successive failures which have so invariably followed each attempt in this country to establish as art journal, did not prove the indifference of the people of America to the chiefs of high art. So seems a proper appreciation of the ment and an ability to meet it were shown; the public at once reflied with entusians to its support, and the result was a great artistic and commercial triumph—THE ALDINE.

The Aldine while issued with all of the regularity, has some of the temporary of sinely in-
